## Subject Index

Aagenaes's syndrome 695  
 Allergy  
   anaphylactoid reaction to dextran 559  
   atopic disease, infancy 80  
   environmental allergens, morbidity 448  
 Amino acids  
   branched-chain and insulin secretion 213  
 Angelman syndrome 398  
 Antibodies  
   in cystic fibrosis 541  
   intravenous infusion, newborn infants 203  
 Asthma  
   cardiac output, blood pressure 441  
   wheezy bronchitis 577  
 Bacteriology  
   chlamydia trachomatis, intrauterine infection 569  
   clostridium difficile, antibodies 86, 135  
   genital mycoplasmas, newborns 383  
   haemophilus influenzae, cystic fibrosis 541  
   pseudomonas aeruginosa, cystic fibrosis 772  
   septic shock, teratogenic factors 875  
 Bartter's syndrome 868  
 Beckwith-Wiedemann syndrome 408  
 Bilirubin  
   neonatal hyperbilirubinemia, follow-up at 18 years age 176  
   hyperbilirubinemia, phenobarbital prophylaxis 488  
 Blood  
   ALL,  $\beta_2$ -microglobulin, nervous system 848  
   ALL, endocrine function after testicular radiotherapy 364  
   haemolytic anaemia, autoimmune, treatment of 145  
   Imerslund-Gräsbeck anemia 248  
   leukemia, jejunal mucosa after treatment 680  
   leukemia, severe infections 515  
   leukemia, superoxide dismutase in leukemic blasts 92  
   neutropenia, cotrimoxazole 763  
   osmotic fragility, phototherapy 254  
   paroxysmal cold hemoglobinuria 258

## Breast feeding

- determinants of feeding practices 789
- immune responses 426
- mother-infant separation, influence of 237
- perinatal and social factors, influence of 268
- social factors, influence of 241

## Cardiovascular system

- blood pressure, hypertensive parents 842
- cardiac output, blood pressure, asthma 441
- cardiomyopathy, anthracycline 387
- myocardial lesions, Shwachman's syndrome 642
- silent ductus arteriosus in IRDS 652
- theophylline, effects of in prematures 404
- ventricular arrhythmia, cystic fibrosis 697

## Chromosomes

- chromosomal rearrangement, mental retardation 138
- partial trisomy syndrome in siblings 281
- mosaic trisomy 21, superoxide dismutase 341

## Cry analysis 65

## Cystic fibrosis

- antibiotic treatment 541
- antibody response, *Pseudomonas aeruginosa* 772
- cardiac involvement 697
- intensive chemotherapy 267
- lung function during exercise 548
- lung function, general anaesthesia 75
- neonatal screening 554
- salivary ribonuclease 263
- vitamin B<sub>12</sub> absorption 537
- vitamin B<sub>12</sub>, elevated serum levels 768

## Diabetes

- children of diabetic mothers, follow-up 349, 778
- children of diabetic mothers, pre-HbA<sub>1c</sub> 855
- elevated serum selenium 109
- hypoglycemia, treatment of 560
- infants of diabetic mothers, metabolic adjustment 620
- interferon- $\gamma$  785
- metabolic control 102, 859

## Down's syndrome

- leukocyte enzymes 97
- selenium in plasma 275
- superoxide levels, phagocytic cells 345

## Endocrine system

- ACTH in plasma, hypopituitarism 372
- aldosterone, dehydrated infants 127
- Bartter's syndrome 868
- calcium metabolism, male puberty 745, 750
- endocrine function after testicular radiotherapy 364
- growth hormone treatment, dosage dependency 120
- hypergonadotropic hypogonadism 740
- hypoglycemia, hyperinsulinism, proinsulin, C-peptide 359
- hypothyroidism, congenital, ultrasonography 523
- insulin resistance, Leprechaunism 701
- oxandrolone, use in Turner's syndrome 674
- pituitary insufficiency after radiotherapy 115
- precocious puberty, body proportions 185
- premature thelarche 756
- prolactinoma, growth and puberty arrest 863
- testicular failure, newborns 740
- vasopressin analogue, water intoxication 131

## Enzymes

- leukocyte enzymes, Down's syndrome 97
- salivary ribonuclease, cystic fibrosis 263
- superoxide dismutase, acute leukemia 92
- superoxide dismutase, mosaic trisomy 21, 341

## Ferritin in human milk 271

## Foetus

- vitamin A, Sweden and Ethiopia 333

## Følling's disease 705

## Gastroenterology

- clostridium difficile, antibodies 86
- diarrhoea, oral rehydration 18
- coeliac disease, gliadin antibodies 657
- jejunal mucosa after leukemia treatment 680
- pseudomembranous colitis, clostridium difficile 135

## Growth

- growth chart, novel format 527
- growth hormone treatment, dosage dependency 120
- growth pattern, constitutional tall stature 530
- hypophosphatemic rickets, statural disproportion 181
- infants, food intake 40
- pattern of intrauterine growth retarded infants 189
- precocious puberty, body proportions 185
- preterm infants, lacto-engineering 302
- prolactinoma 863
- transcephalic impedance, head growth 820
- Turner's syndrome, use of oxandrolone 674

## Hemolytic-uremic syndrome 505

## Hypophosphatemic rickets, cranial synostosis 149, 857

## Immunology

- C-reactive protein, immunoturbidimetric method 273
- immune response, breastfeeding, bottlefeeding 426
- IgG subclasses, preterm neonates 626
- interferon, undue susceptibility to infections 197
- interferon- $\gamma$ , diabetic children 785
- monocyte chemotaxis, human milk 463
- paroxysmal cold hemoglobinuria 258

## Infectious diseases

- clostridium difficile, antibodies 86, 135
- C-reactive protein 273
- genital mycoplasmas, respiratory distress 383
- meningitis, neonatal, Nigeria 477
- neonatal pyoderma, chlorhexidine 498
- poliomyelitis, vaccine-induced 133

## Lacto-engineering, human milk 302

## Leprechaunism, hyperinsulinism, insulin resistance 701

## Liver

- bile acids, cholestasis 392
- congenital damage, valproic acid 565
- hereditary recurrent cholestasis 695

## Malformations

- Beckwith-Wiedemann syndrome 408
- cranial synostosis, premature in hypophosphatemic rickets 149
- extrahepatic bile duct atresia, Epstein-Barr virus 155
- hereditary renal dysplasia 278
- incidence in various socioeconomic groups 664
- septic shock and hyperthermia 875
- stenosis of trachea, congenital 141

McCune-Albright syndrome 860

Metabolism

- branched chain amino acids, insulin secretion 213
- calcium metabolism, male puberty 745, 750
- catecholamines, metabolic adaption after delivery 602
- catecholamines, infants of diabetic mothers 620
- insensible water loss, ambient humidity 615
- phenylketonuria 750
- vasopressin, perinatal asphyxia 610

Methodology

- bladder training 60
- endotracheal epinephrine, resuscitation of newborns 210
- growth chart, novel format 527
- immunoturbidimetric method, C-reactive protein 273
- measurement of arterial pressure 403
- plasma clearances, polyfructosan, <sup>51</sup>Cr-EDTA 379
- rectal administration of glucose 560
- time-lapse filming, newborns 307
- ultrasonography, congenital hypothyroidism 523

Milk

- breast milk, growth of infants 40
- breast milk, antimicrobial factors 796, 803
- composition of LBW infants mothers 693
- ferritin, human milk 271
- human milk formula, growth, nitrogen balance 302
- human milk cells, monocyte chemotaxis 465
- human milk, mineral content 471
- immunologic components, human milk 296

Nephrology

- Barter's syndrome, nephrocalcinosis 868
- clearance of polyfructosan and of <sup>51</sup>Cr-EDTA 379
- diuresis, newborns during CPAP 727
- hemolytic-uremic syndrome 505
- hereditary renal adysplasia 278
- nephrotic syndrome, minimal changes 631
- nephrotic syndrome, levamisole treatment 637
- nephrotic syndrome, pulse methylprednisolone 733
- renal osteodystrophy, 1,25-dihydroxycholecalciferol 315
- renal water excretion, newborn 717

Nervous system

- Angelman or "Happy Puppet" syndrome 398
- $\beta_2$ -microglobulin, ALL 848
- cerebral palsy, changing panorama 433
- cerebral blood flow 810
- childhood migraine 55, 861
- hydrocephalus, cry analysis 65
- infantile spasm 1
- meningitis, neonatal 477
- spina bifida, bladder training 60

Newborn infants

- catecholamines after delivery 602
- cerebral blood flow 810
- chlamydia trachomatis, lung infection 569
- cystic fibrosis, screening 554
- diuresis during CPAP 727
- factors influencing feeding 33
- hyperbilirubinemia follow-up at 18 years of age 176
- intralipid infusion, fat embolism 454, 461
- intravenous infusion of antibodies, parenteral nutrition 203

- osmolality, plasma and urine 722
- phototherapy, osmotic fragility 254
- pregnancy outcome, social indicators 69
- pyoderma, chlorhexidine 498
- renal water excretion 717
- respiratory distress, genital mycoplasmas 383
- resuscitation, endotracheal epinephrine 210
- testicular failure 740
- time-lapse filming 307
- trace elements 596
- unexplained deaths 828
- Vitamin B<sub>6</sub> intake 218

Nutrition

- branched-chain amino acids, insulin production 213
- food intake, infants 40
- infant feeding 685
- intralipid infusion, intrapulmonary fat accumulation 454, 461
- intrauterine malnutrition 482
- parenteral, newborns 203
- parenteral, selenium 816
- protein and energy, relationship 49
- transcephalic impedance, caloric intake 820

Pharmacology

- anthracycline-derivates, cardiomyopathy 387
- carbamazepine, vitamin D 325
- carbamazepine, pneumonitis 285
- salicylate therapy, Reye's syndrome 562
- theophylline, cardiovascular effects, prematures 404
- valproic acid, liver damage 565

Phototherapy

- osmotic fragility 254
- Premature and low birth weight infants
- follow-up at 18 years 168
- follow-up at 9 years 835
- IgG subclasses 626
- insensible water loss 615
- lacto-engineering, growth, nitrogen balance 302
- osmolality, plasma and urine 722
- outcome in India 406
- relationship between protein and energy 49
- theophylline, cardiovascular effect 404
- trace elements 596
- transcephalic impedance 820
- surgery, extremely low birthweight infants 594
- vitamin E, intestinal absorption 329

Renal osteodystrophy 315

Respiratory system

- lung function, cystic fibrosis 75
- lung function, diaphragmatic hernia 589
- pneumonitis, acute interstitial, carbamazepine 285
- pulmonary fat embolism, intralipid infusion 454, 461
- pulmonary hemosiderosis 584
- silent ductus arteriosus in IRDS 652
- wheezy bronchitis, prospective study 577

Reye's syndrome 562

Rickets

- hypophosphatemic, statural disproportion 181
- treatment 225
- X-linked hypophosphatemic, cranial synostosis 149, 857

Shwachman's syndrome 642

**Social Paediatrics**

- chronically ill and handicapped children 161
- responses to hospitalization 289
- social factors, infant feeding 33, 789
- social indicators, pregnancy outcome 69
- unexplained infant death 828

**Surgery**

- resection of congenital stenosis of the trachea 141

**Trace elements**

- newborns 596
- selenium, diabetes 109
- selenium, Down's syndrome 275
- selenium, parenteral nutrition 816

**Tumour**

- ganglioneuroma 411
- prolactinoma 863
- retinoblastoma, pituitary insufficiency after treatment 115

**Vaccination**

- pertussis 417
- poliomyelitis, vaccinia-induced 133

**Vitamins**

- vitamin A, post measles corneal ulceration 22
- vitamin A, foetal nutrition 333
- vitamin B<sub>6</sub>, newborns 218
- vitamin B<sub>12</sub>, cystic fibrosis 537, 768
- vitamin D, metabolites in breast-fed infants 29
- vitamin D metabolites, concentration for and after treatment 225
- vitamin D, carbamazepine treatment 325
- 25-hydroxyvitamin D, levels in Finnish children 232
- 1- $\alpha$ -OH-cholecalciferol, intoxication 149
- 1,25-dihydroxycholecalciferol, osteodystrophy 315
- vitamin E, intestinal absorption 329

**Wake-sleep rhythm 667**
